DRUG TOXICITY DEATHS

Saskatchewan, 2010 to 2021

(Confirmed Drug Toxicity Deaths Updated – November 3, 2021)

(Suspected Drug Toxicity Deaths Updated – November 3, 2021)

The data in the following tables include all death investigations concluded by the Saskatchewan Coroners Service (SCS) **between January 1, 2010 and November 3, 2021** where the cause of death was due to a **Drug Toxicity (Single or Combined Drug Toxicity)**. The statistics shown are subject to change as new investigations are undertaken and/or on-going investigations are concluded.

For the following tables please note:

- ‘Undetermined’ indicates that after completing an investigation, there is equal evidence, or a significant contest between one or more classifications.
- The statistics for 2019, 2020 and 2021 are preliminary given that not all death investigations for these years have been concluded.
- All statistics in these tables have been confirmed drug toxicity deaths with the exception of the table “Suspected Drug Toxicity Deaths, January 1 to December 31, 2020” and “Suspected Drug Toxicity Deaths, January 1, to November 3, 2021”. At the time of this printing, the statistics in this particular table are preliminary data and may change once the cases have been concluded.

\* Illicit Drugs Containing W-18 – As part of a 2015 investigation into the combined drug toxicity death of a male, age 25, there were tablets found at the scene which were analyzed and found to contain fentanyl and W-18. Given the limitations of toxicology testing, it is not possible to quantify W-18 beneath a certain level within a person's blood. The Saskatchewan Coroners Service was unable to determine whether W-18 contributed to this individual's death. Also, based on the circumstances of the death, it could not be confirmed whether the deceased ingested any of the tablets that contained the fentanyl and W-18. The individual's cause of death was combined drug toxicity involving a number of drugs including fentanyl and morphine which are reflected in the statistics contained in the tables of this report.
