

Jeremy Sibicki, to me you are a heartless evil monster.

You changed my life and what you did to my niece Rebecca Contois is unforgiveable.

Since her death, I haven't been able to sleep properly. I have nightmares of you, and nightmares of my niece. Especially, the dismembered parts of her, certain things trigger my memory of what you said in your statement. Yes, I saw you in court, I can tell you are a coward, scared, personally you look like a wimp.

My grandchildren, ask me questions about this and it is very hard to answer. I see Rebecca's family crying and all I can do is cry in silence, and hope you receive a harsh swift sentence. I feel sick every time I hear your name.

I will never get to see my neice Rebecca now, ever. You killed the mother of Rose, and one day she will have to hear how you viciously murdered her mother. Even writing this makes me sick.

Yes, you took her life and she will never be forgotten, for this you made yourself Famous.

In our Indigenous Culture women are the life-givers, and what you did to my niece is very gruesome and you committed the ultimate Crime.

I hope your ready for your life behind those jail bars, as you will never be able to hurt another Indigenous woman. You will never be able to feel the comfort of a women, you are senseless murderer and you ARE criminally responsible for your actions.

Your face is a face of the Devil in human form. God have mercy on your soul.

Valerie Moar
